Love, life, longevity.

At Kitchen Craftsmen we believe that a 'kitchen in a home' is so much more than just a 'kitchen in a home'. It's a hub. It's where laughter reigns, where tears fall, it's from where the family daily news is broadcast. Life happens in a kitchen and it's keeping this in mind that ensures that every kitchen we design, build and install is as individual as you are.

Then of course there's food preparation. Functionality comes into play, features are paramount and practicality is essential. You will find to your delight that we are masters at utilising available space to its full advantage and will create inspired logic to achieve a design that is pleasing both ergonomically and aesthetically.

In terms of your decision making process on who to entrust with your kitchen, you should ask 'what sets Kitchen Craftsmen apart from the rest'? Well, the person that you deal with in our showroom is an experienced designer and not just a sales representative. They have a complete understanding of your needs, budget and aspirations from consultation through to design, manufacture and installation. For you, most importantly, we are master craftsmen and take absolute pride in the quality of our work.

A Kitchen Craftsmen kitchen is built for life, for love, for longevity. Love your craft.

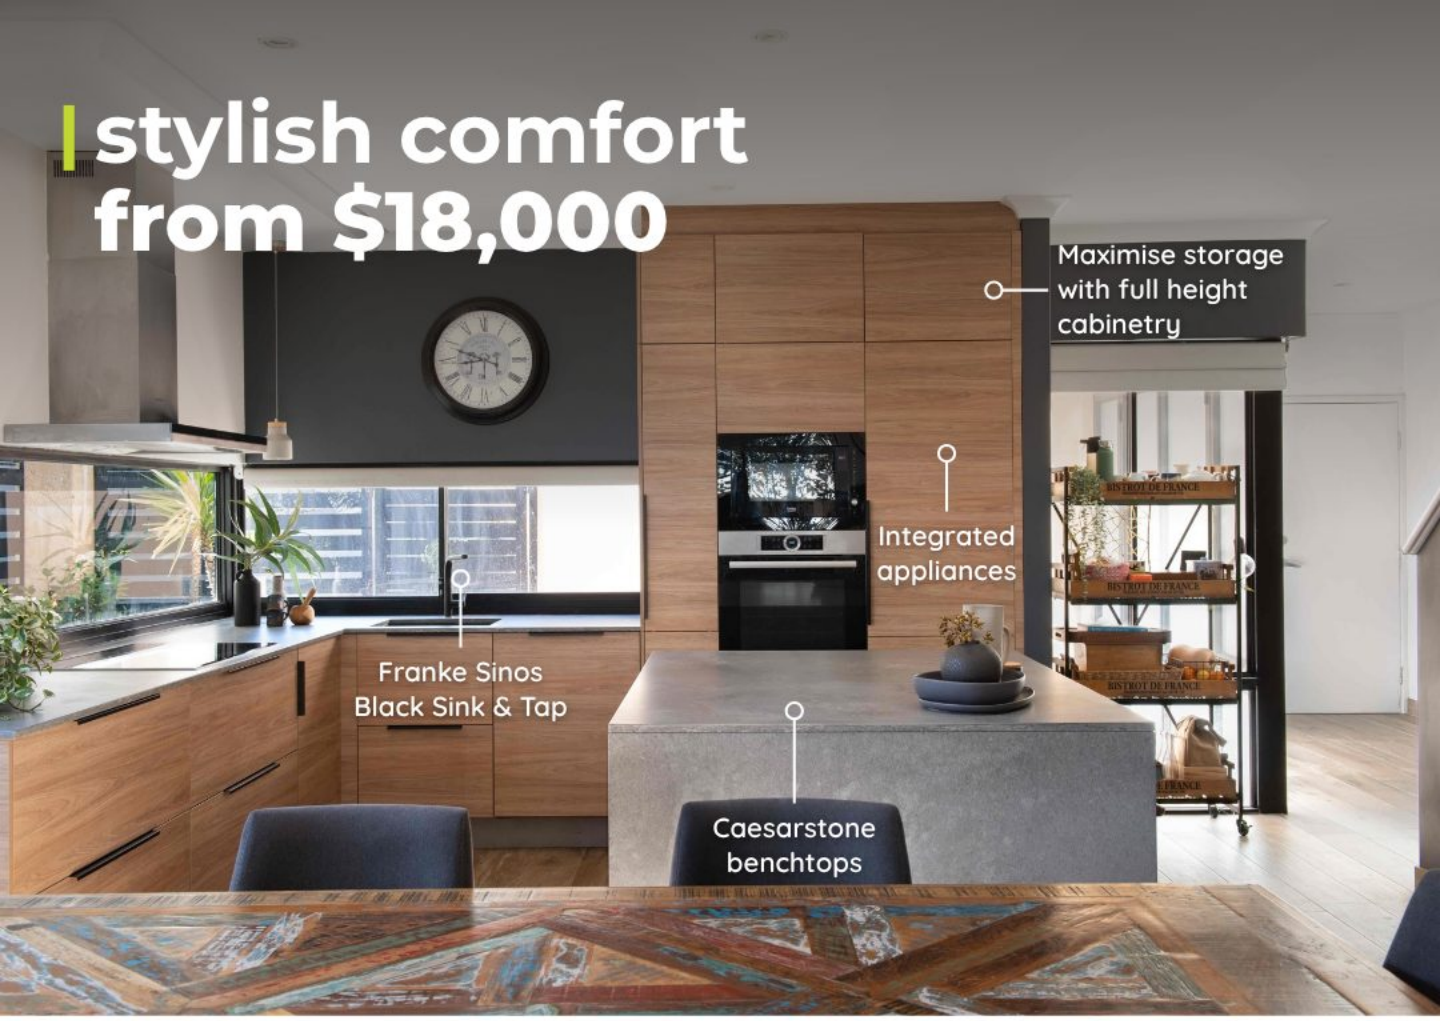
stylish comfort from $18,000



11sqm

Claremont

When combined with industrial finishes like black handles and stone benchtops, timber can add dimension and warmth to any style of home.

In this design, deep drawers provide easier access than cabinets and eliminate hard to reach places, as well as looking sleek and minimal.

simply contemporary from $17,500

20sqm

Mt Pleasant

Timeless, clean, calming and versatile, an all-white kitchen is easy to style and will suit any style of home. This kitchen features the same material for a splashback as the Silestone by Cosentino waterfall benchtop to create continuous flow and give the impression of deeper benches.

Silver appliances and a gorgeous deep black sink add style and dimension. Overhead handle-less cabinets are a fantastic way to store frequently used cooking items such as spices, tea and coffee, but also add style to the design.

6sqm

Joondalup

Choosing a mix of luxe and minimal, this is a dramatic kitchen in a small space. Integrated appliances to streamline the look of the kitchen and plenty of storage, this kitchen oozes style and practicality.

We used the same Caesarstone Benchtop as the Splashback, which is hardwearing and easy to keep clean. Matte black tapware is remaining popular in new kitchen designs as aside from looking stylish, it requires minimal maintenance over time and resists watermarks and fingerprints.

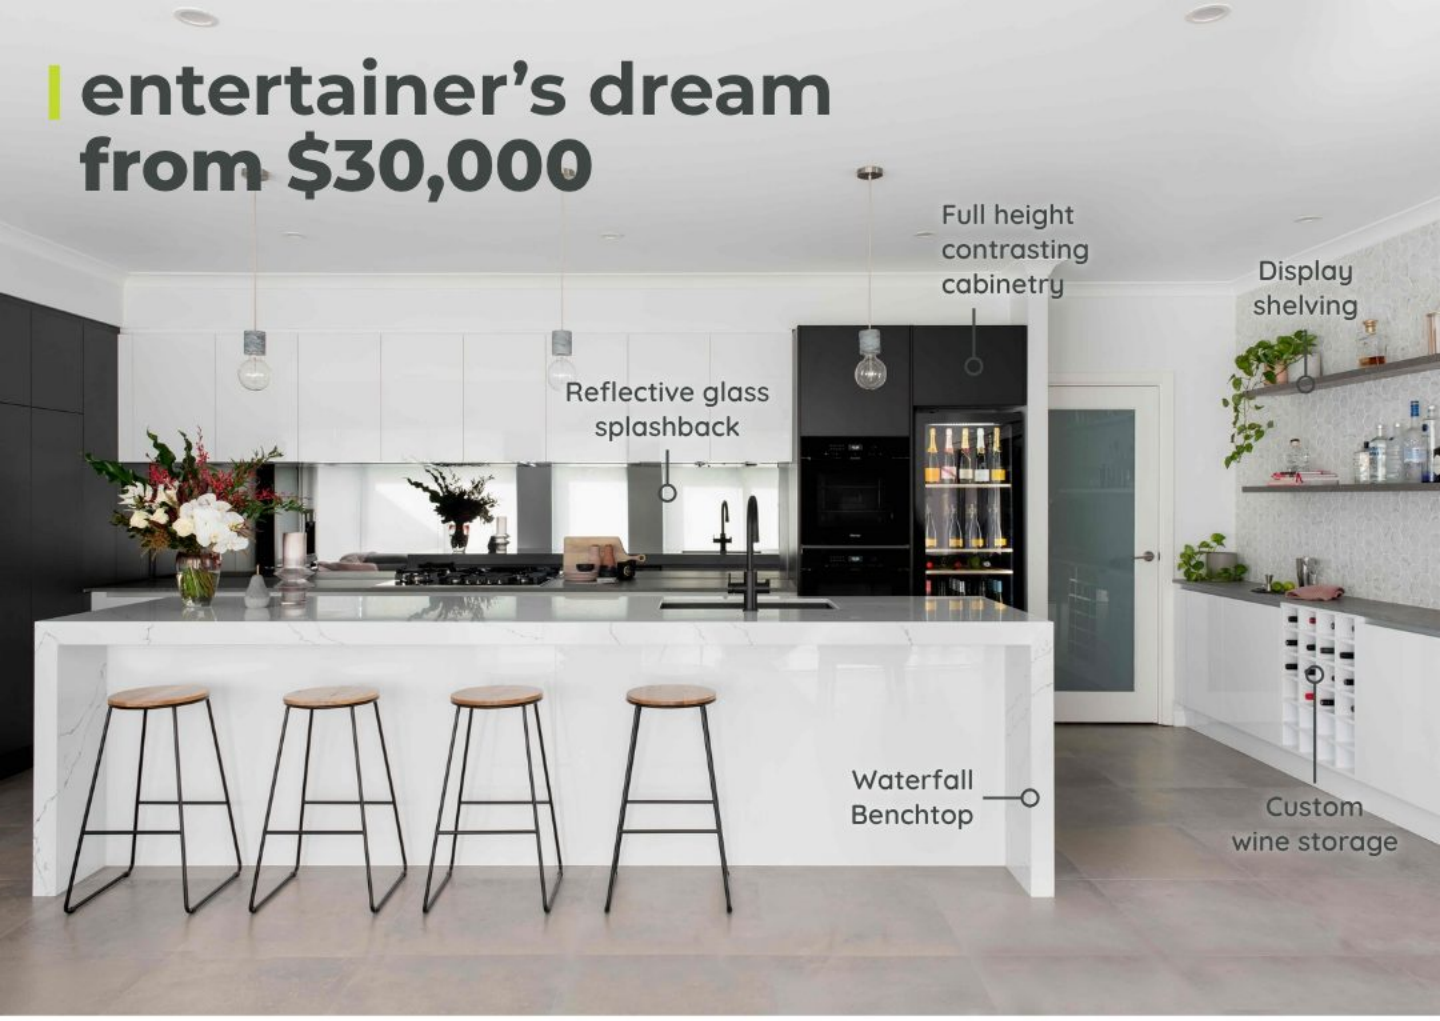
entertainer's dream from $30,000



17sqm

Burns Beach

No detail has been overlooked when it comes to this custom kitchen design. This unique space has a designated area for coffee (and gin and tonics!) with a hexagon mosaic tiled splashback that separates it from the rest of the kitchen. Black Laminex cabinetry and white marble island is united by a sleek grey concrete look Caesarstone benchtop and DWG dark mirror splashback.

A statement matte black pull out mixer over a ceramic, drop-in sink is a focal point on a massive centre island. This kitchen was built for entertaining.
